CATALOGUE 2024

twenty years of BATHROOM obsession

We understand bathrooms. Over 20 years the bathroom has evolved from a practical space for washing and cleansing to an emotional one focused on relaxation and rejuvenation. In response, Respite has curated an extensive range of products to delight our customers, always.

about us

RESPITE has come to be one of the best recognized faucet manufacturing brands in Indian market, It dons wide portfolio products, an outcome of nearly two decades of craftsmanship, Innovation and excellence.

Respite has its ultra modern factory in Jammu & authorized dealerships across all major cities in India.

A RESPITE design and innovative technology meet global parameters on ergonomics, finish, material, safety and environmental impact and functionality. RESPITE products are designed by well known designers in and around

country with an aim to provide excellence and beauty to every bathroom with a striking visual appeal that is contemporary yet classy. Our continuous R&D of technology and high consistency in quality standards has

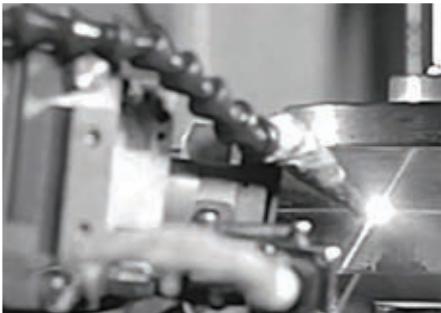

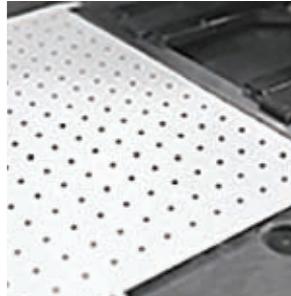

made us successful in delivering products with a sense of appeal, aesthetic looks and everlasting shine.

Our products are manufactured using modern technology, high end raw material. One can experience skilled man power in action in our world class manufacturing facility in Jammu. These finished products, crafted with excellence are then distributed all over India with a networking chain of reliable authorized RESPITE dealers hence

providing an excellent sales & after sales service to our valued customer all across the country,

RESPITE

DESIGN-RESEARCH & DEVELOPMENT

Our design department will help you select the right style, function, and materials to meet the specific needs of your project.

TOOLING

Design & Planning programmes are fed into a central tooling computer which completes the development. The combined expertise of our tool makers and the versatility of our equipment unite this department in the development of prototypes in readiness for product launches.

FOUNDRY

The variety of the equipment, both coring and moulding, makes possible the creation of a large variety of parts, from the one-off unit to the production run. The selection of alloys and the experiences of our moulding staff are essential to the achievement of finished products of high quality.

POLISHING

In the world of design, the robot is not replacing the people, but is at their disposal. The preparation of products using automatic control systems reduces tedium and concentrates the expertise of the employees on the complex aspects.

STORAGE

Each order is prepared by selection from a stock of several thousand articles. With the aid of advanced computer applications, the preparing staff put together the customer orders in the form of polished products, which are then sent to the surface treatment plant.

PLATING/ VARNISHING

While complying with the most constraining environmental standards, we finish our products according to the desires of our customers.

ASSEMBLY

Assembling tens of thousands of different products, together with a continuous quest for quality, necessitates experienced and rigorous staff with a high degree of dexterity. Careful inspection of our products in the assembly area ensures that the customer is getting a highly reliable product.

SHIPPING

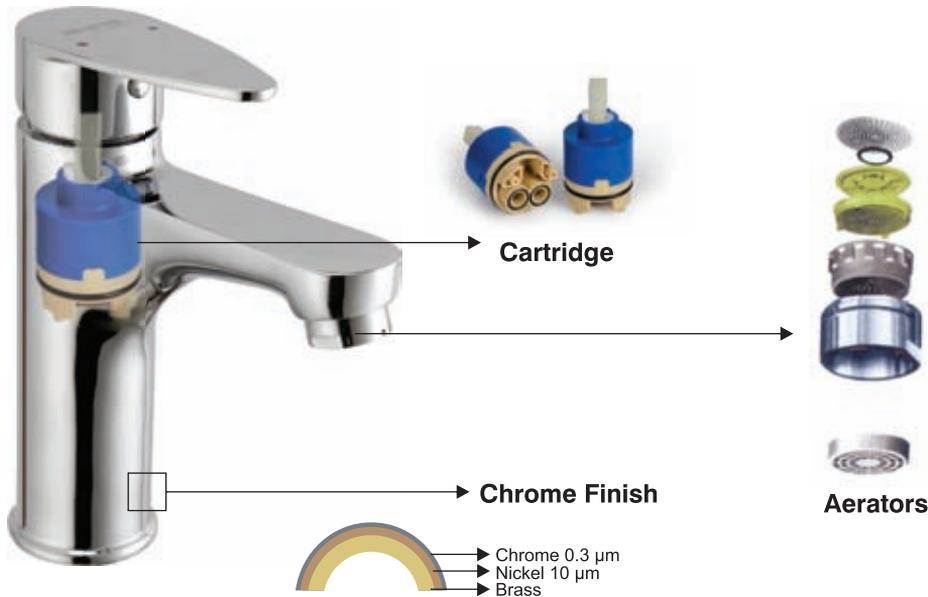

After final inspection, the customer orders are packed and then shipped by every conceivable means of transport.

Faucet Technology

RESPITE has always believed in the power of innovation. Innovation is what drives technological advancement, leading to quantum leaps forward in functionality and durability. We have a team of people dedicated to developing product ranges that innovate in their form and function. We design products that not only look great but are easy to install, maintain and minimize environmental impact.

Unmatched Warranty

EasyMove

Ensures a lifetime of maintenance free comfort and reliability, precise temperature adjustment. This is a good example of design and technology fusing to bring you an enhanced water experience

StarPlating

Lustrous, mirror-like sheen that is soil repellent, scratch resistant and non-tarnishing, ensures a color-fast, good-as-new appearance for years to come.

EcoCare

Option to minimize consumption naturally integrated, consumes less water and energy.

LeadFree

Materials and functions for maximum hygiene and to preserve the water quality.

Whisper

Extremely quiet, ensures that there is no irritating noise of water hammering.

ZeroDrip

All the faucets are guaranteed to be drip free.

Bath accessories

A great bathroom deserves equally good bathroom accessories. Respite's collection caters to people of all ages, where each item is designed to incorporate our basic needs in a practical yet aesthetic manner. These are a great way to organise your bathroom so that the various products that we use are easy to find and use. With the help of accessories, you can beautify your bathroom and make it clutter-free.
